

Canine Ovariohysterectomy Photo Album

UMC case # 378841 performed on 4 April 2008

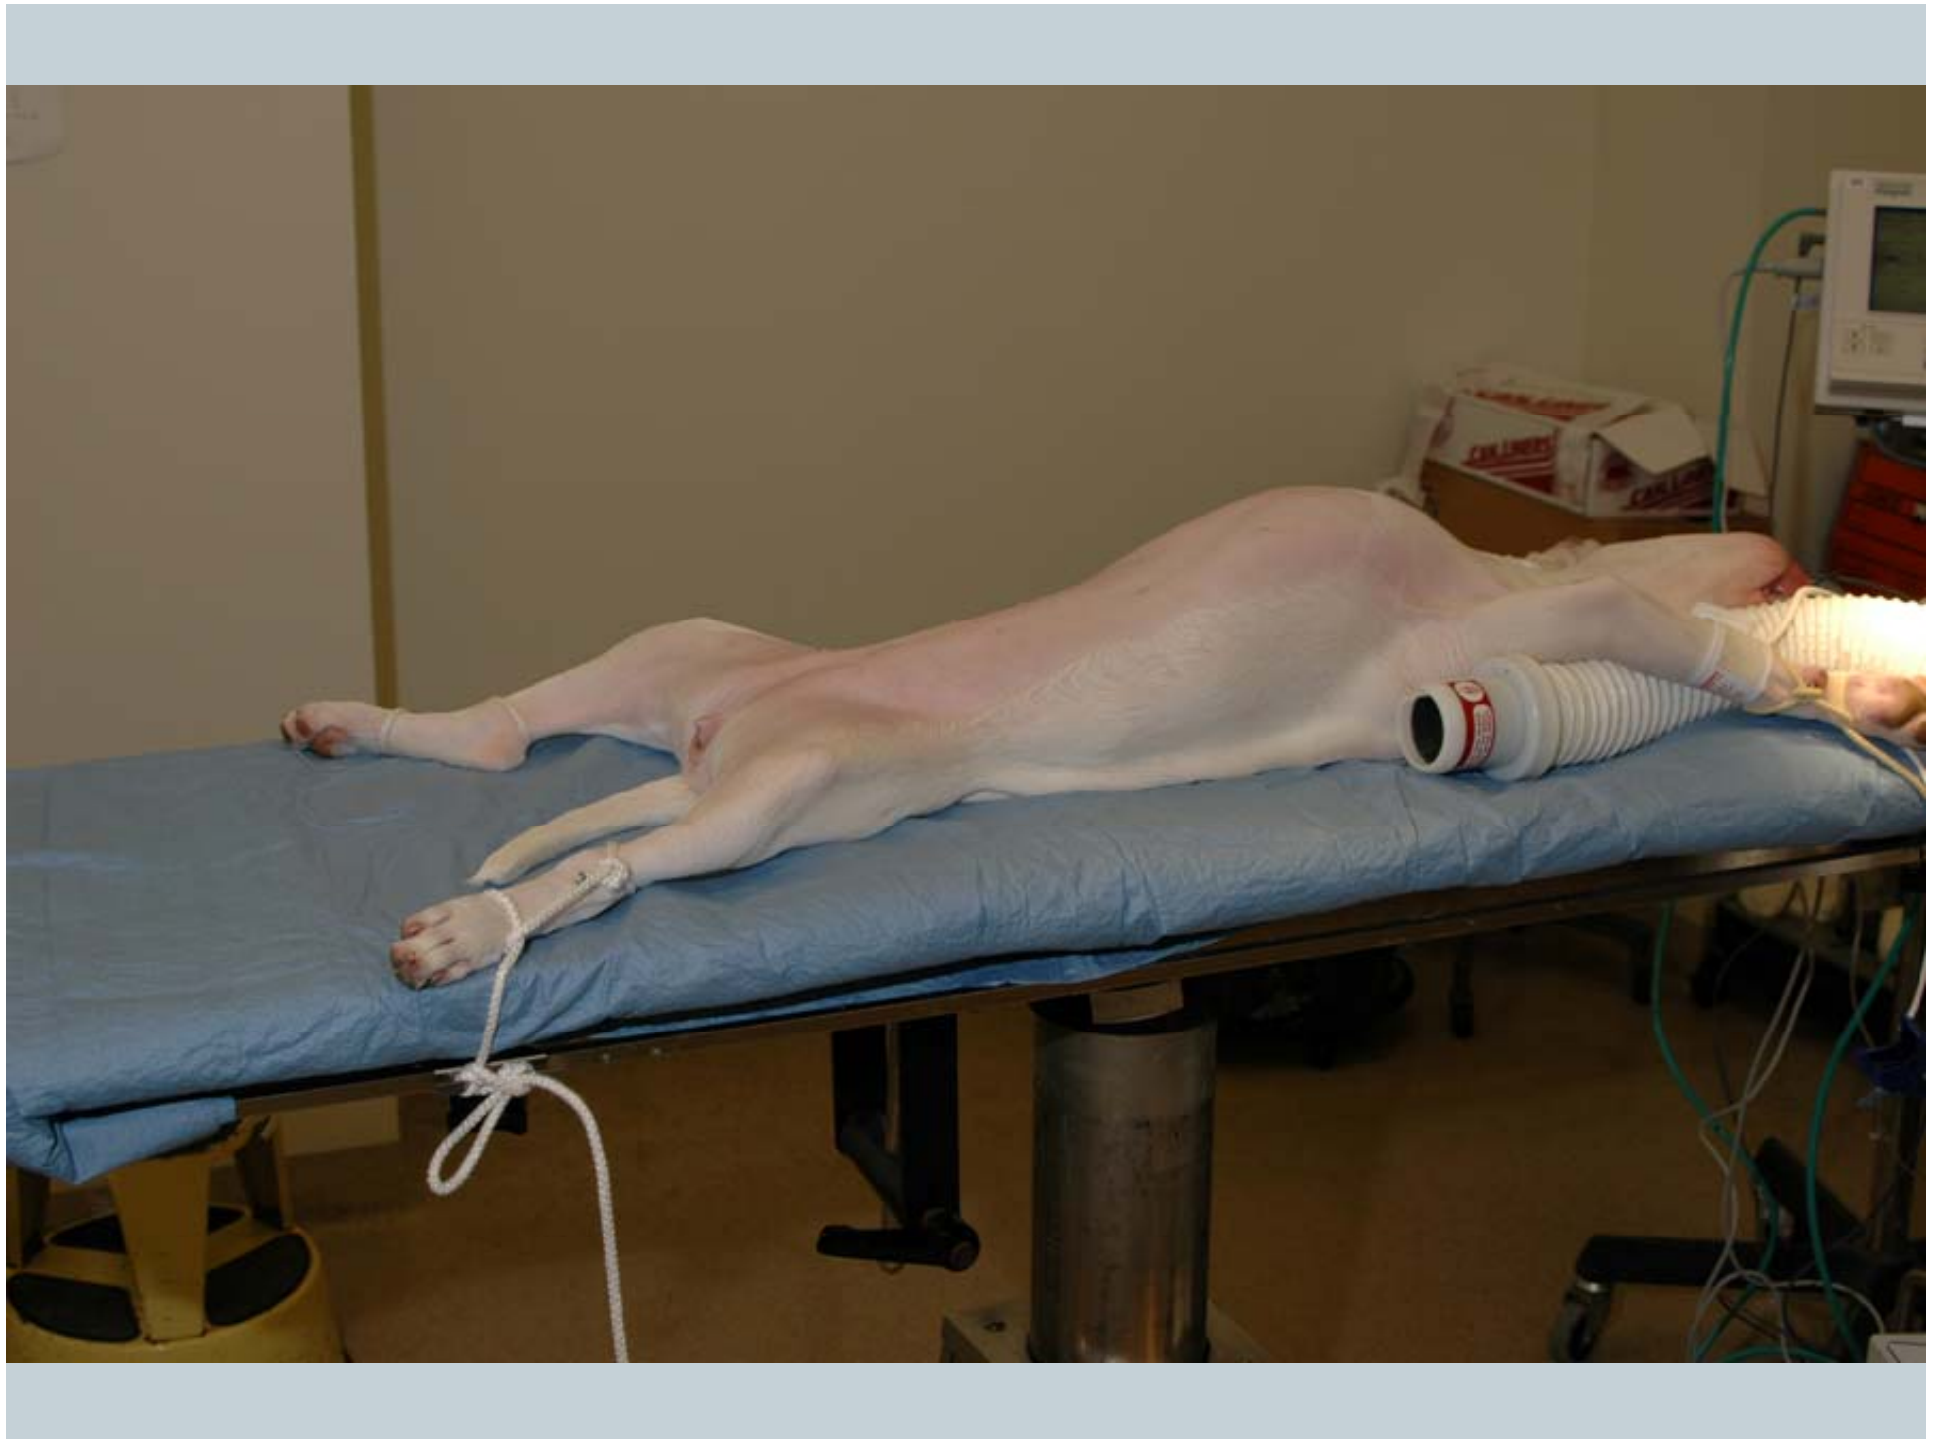

F. A. Mann, DVM, MS,
Diplomate ACVS, Diplomate ACVECC

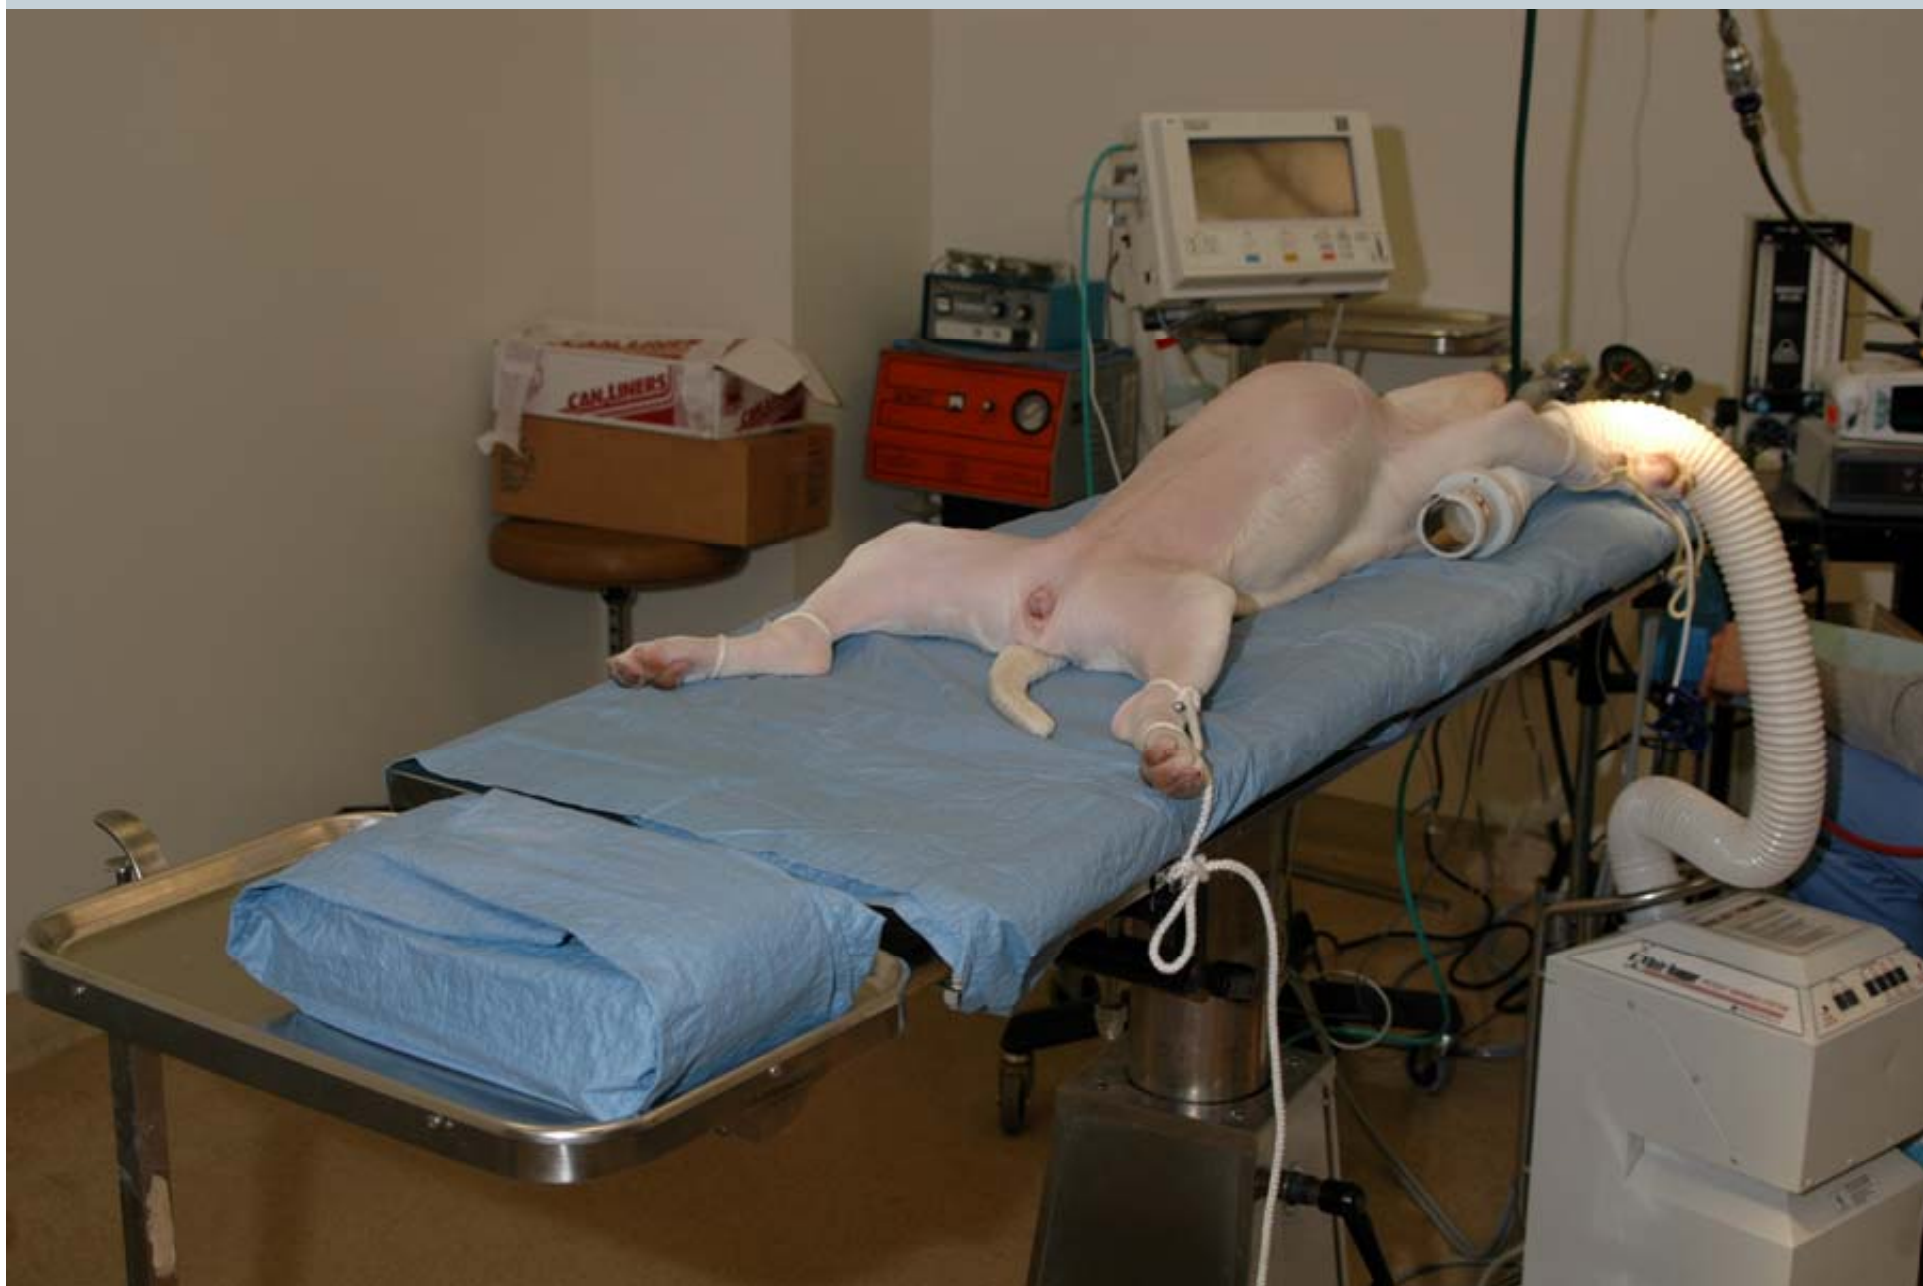

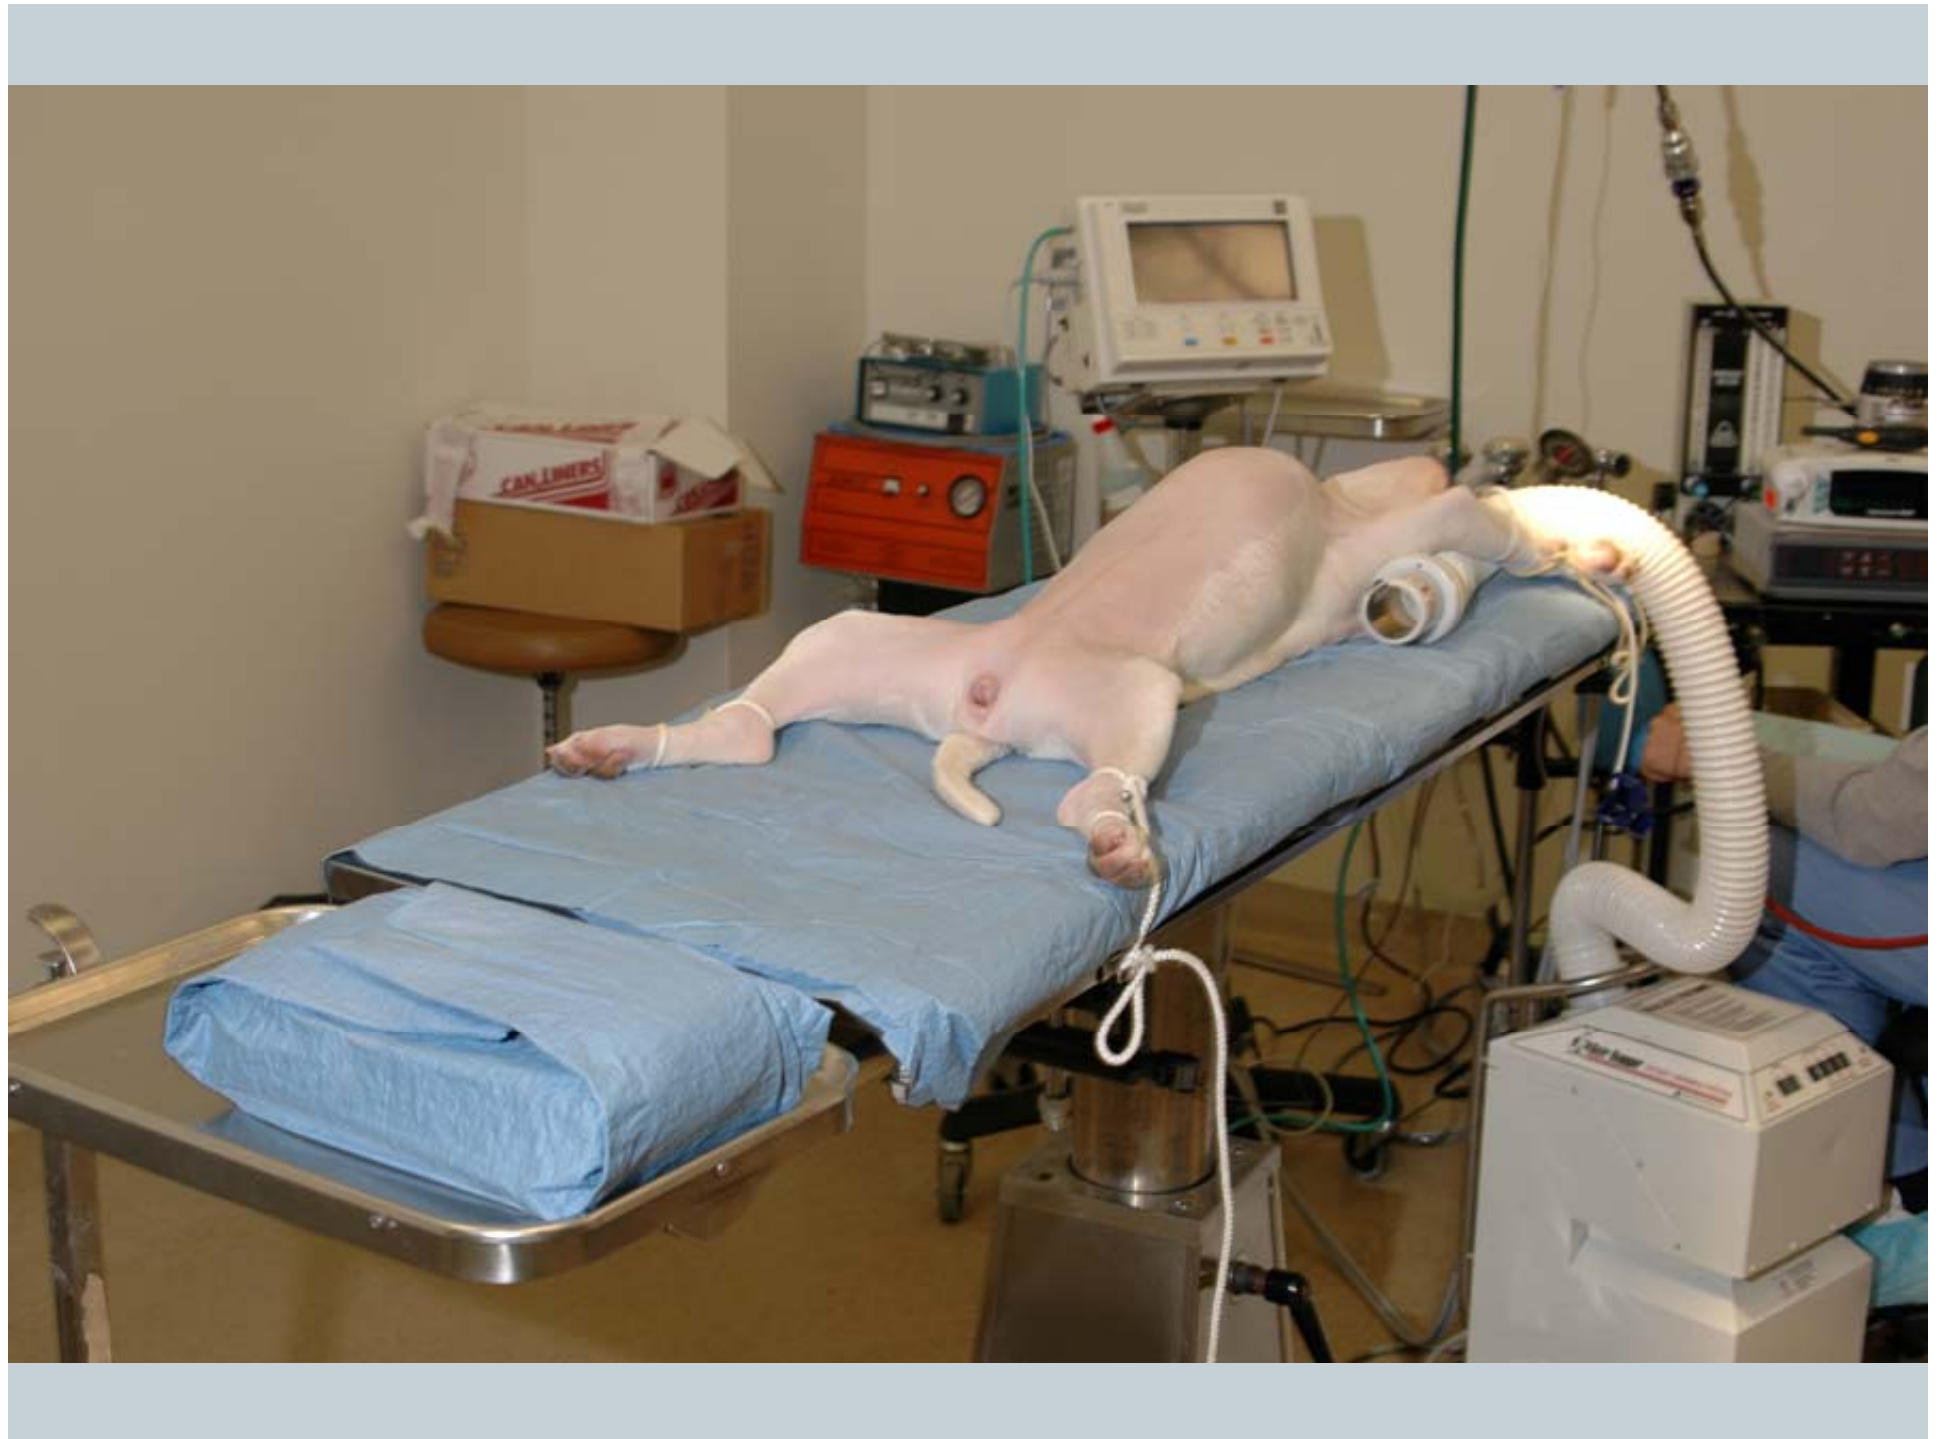

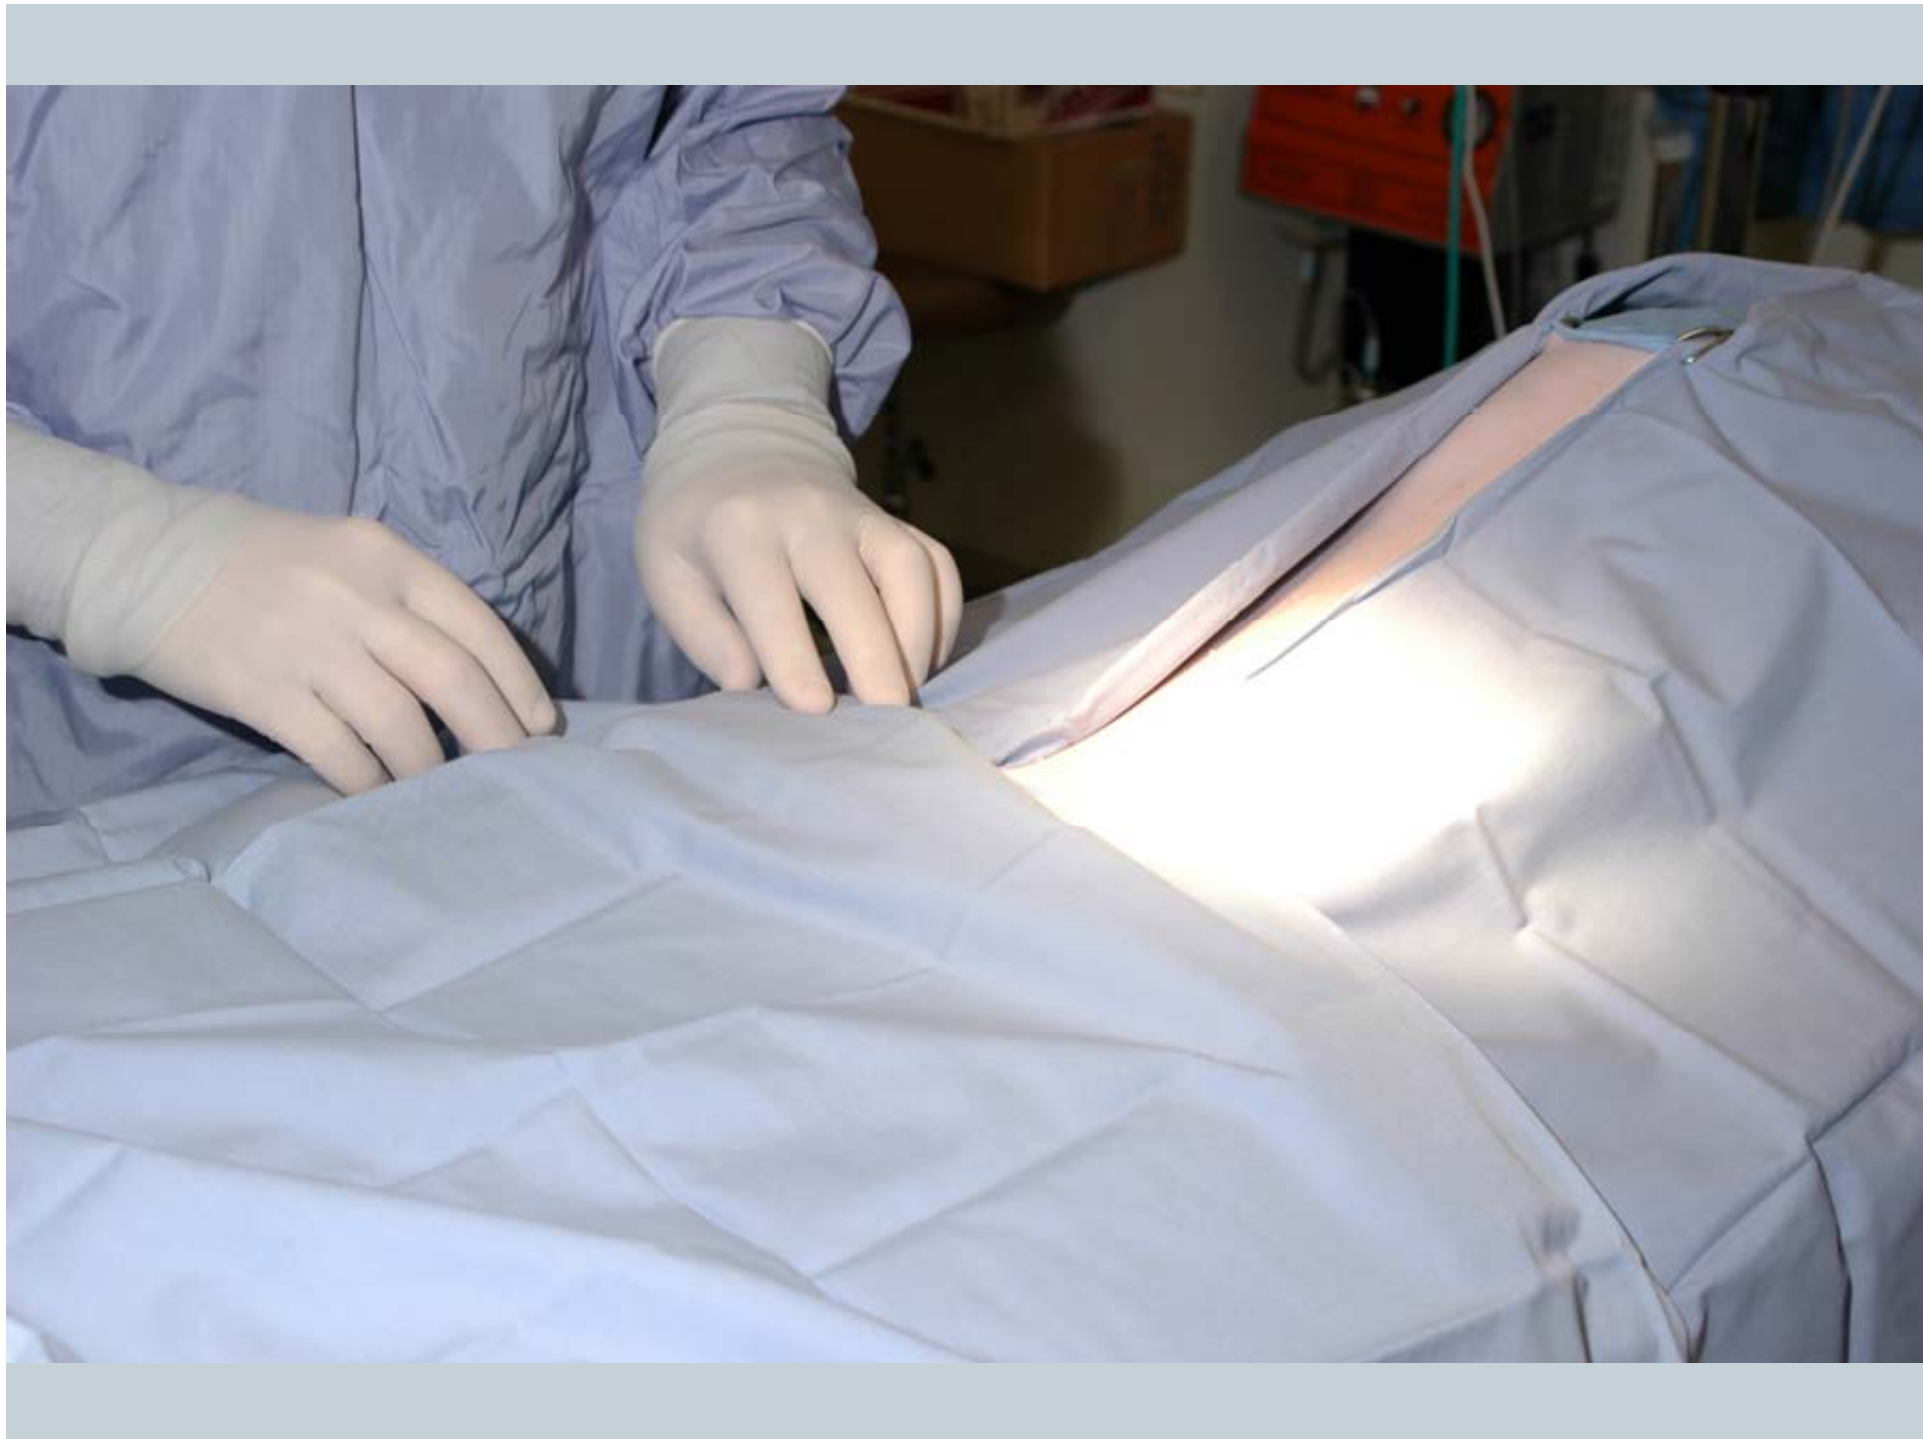

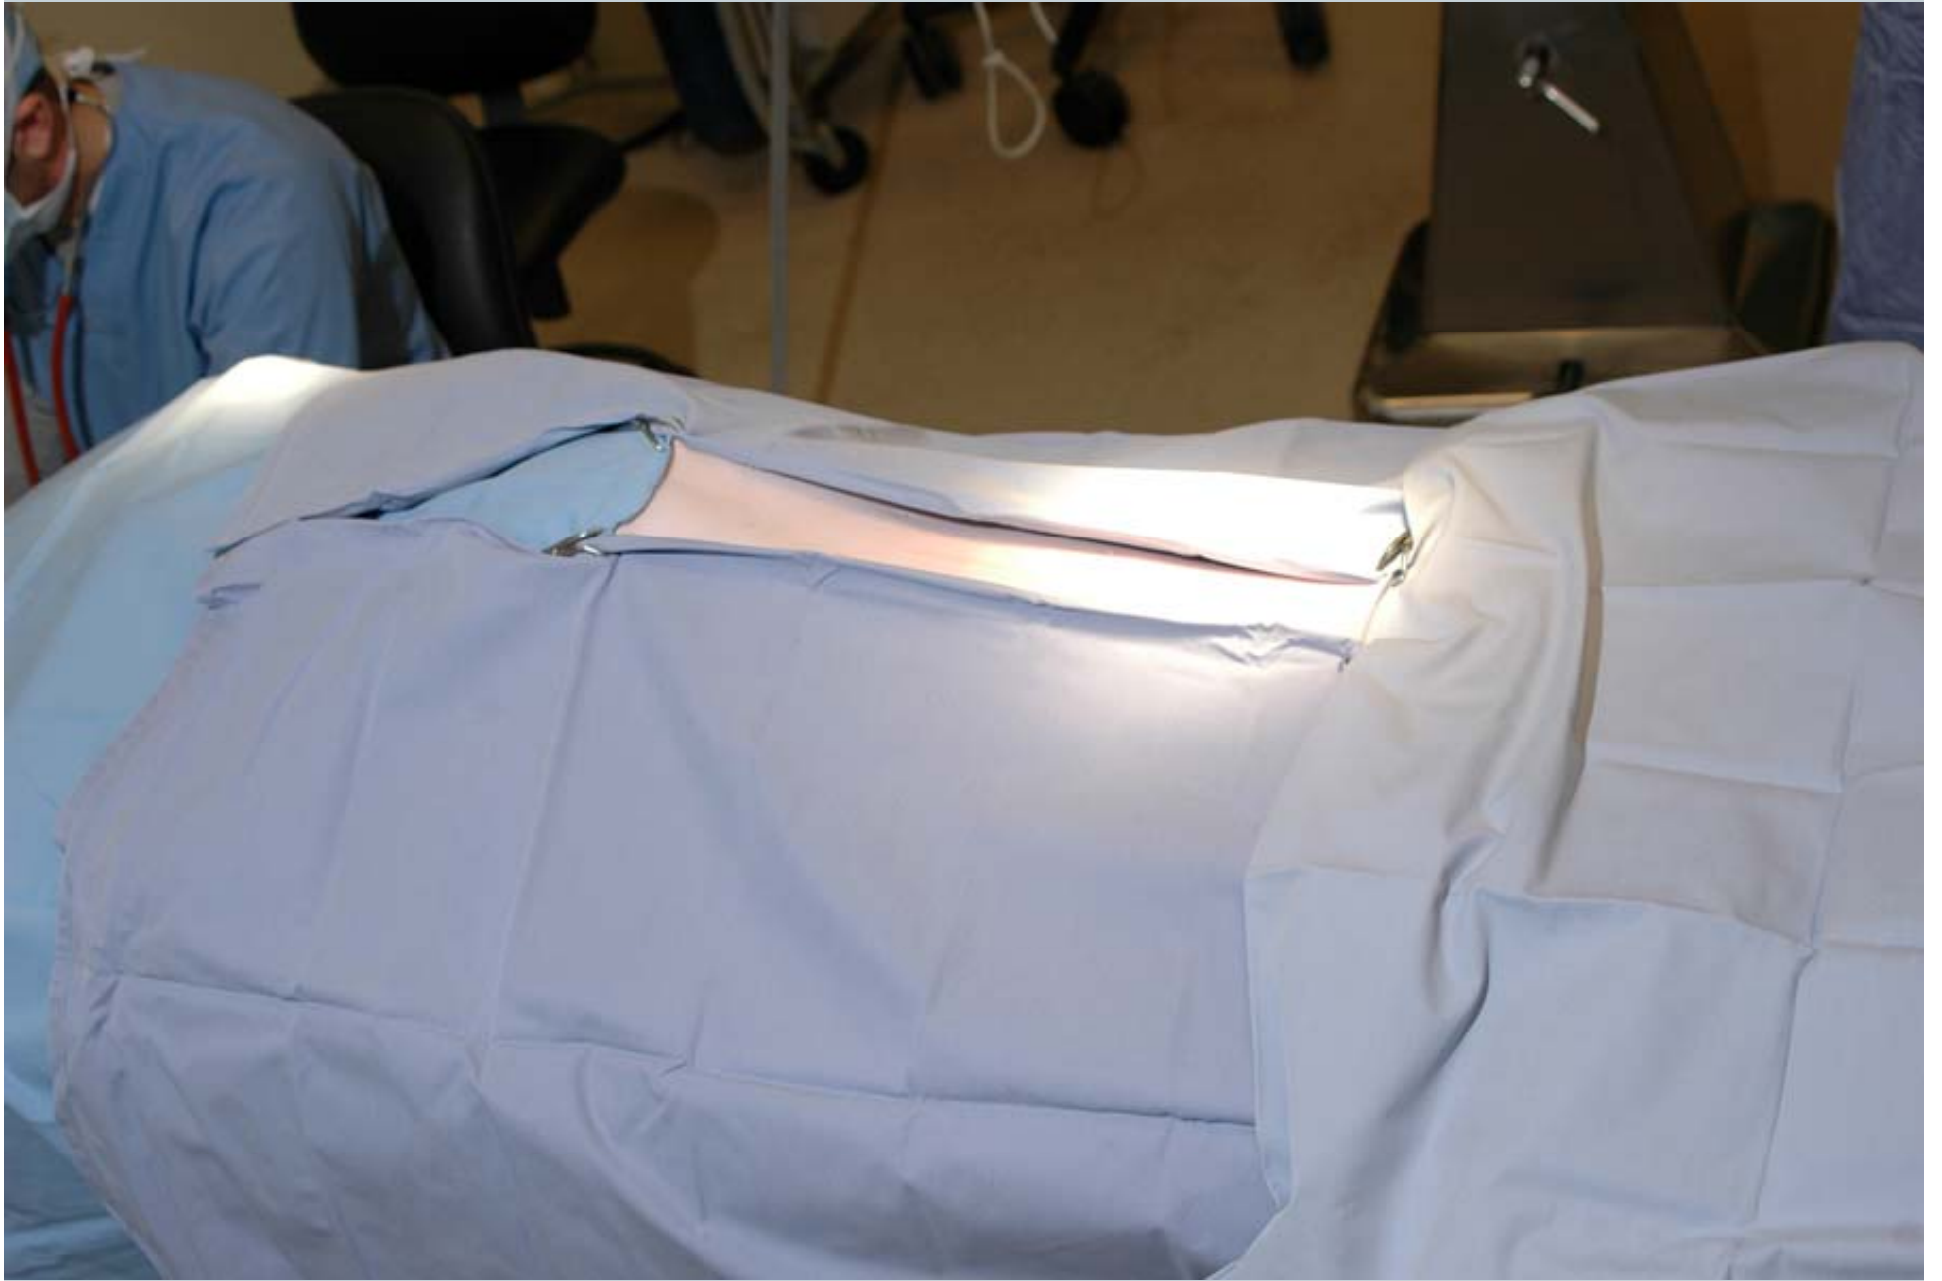

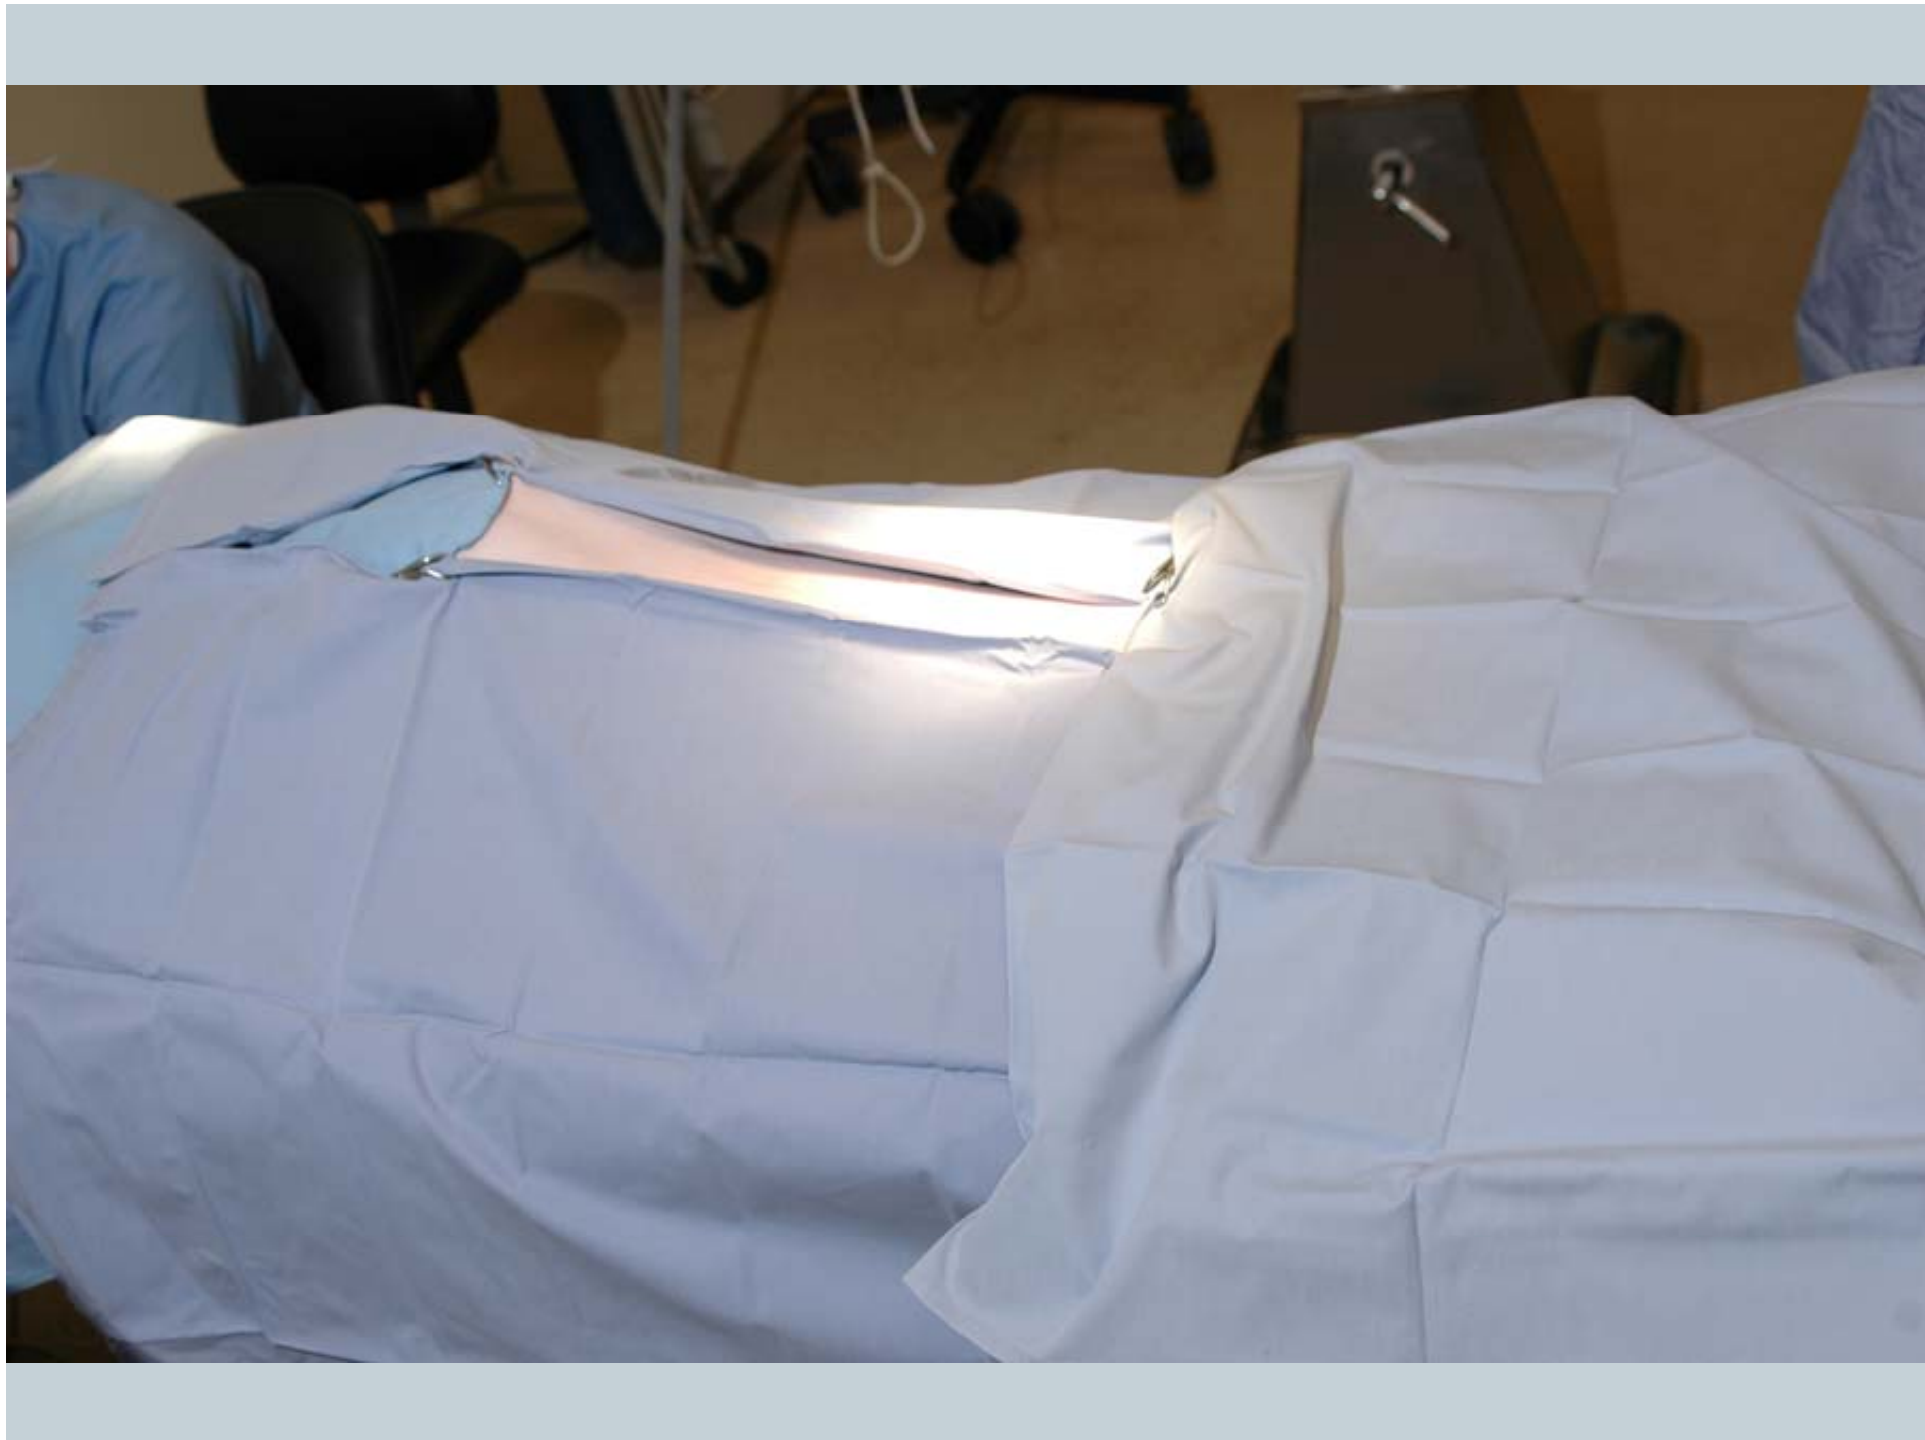

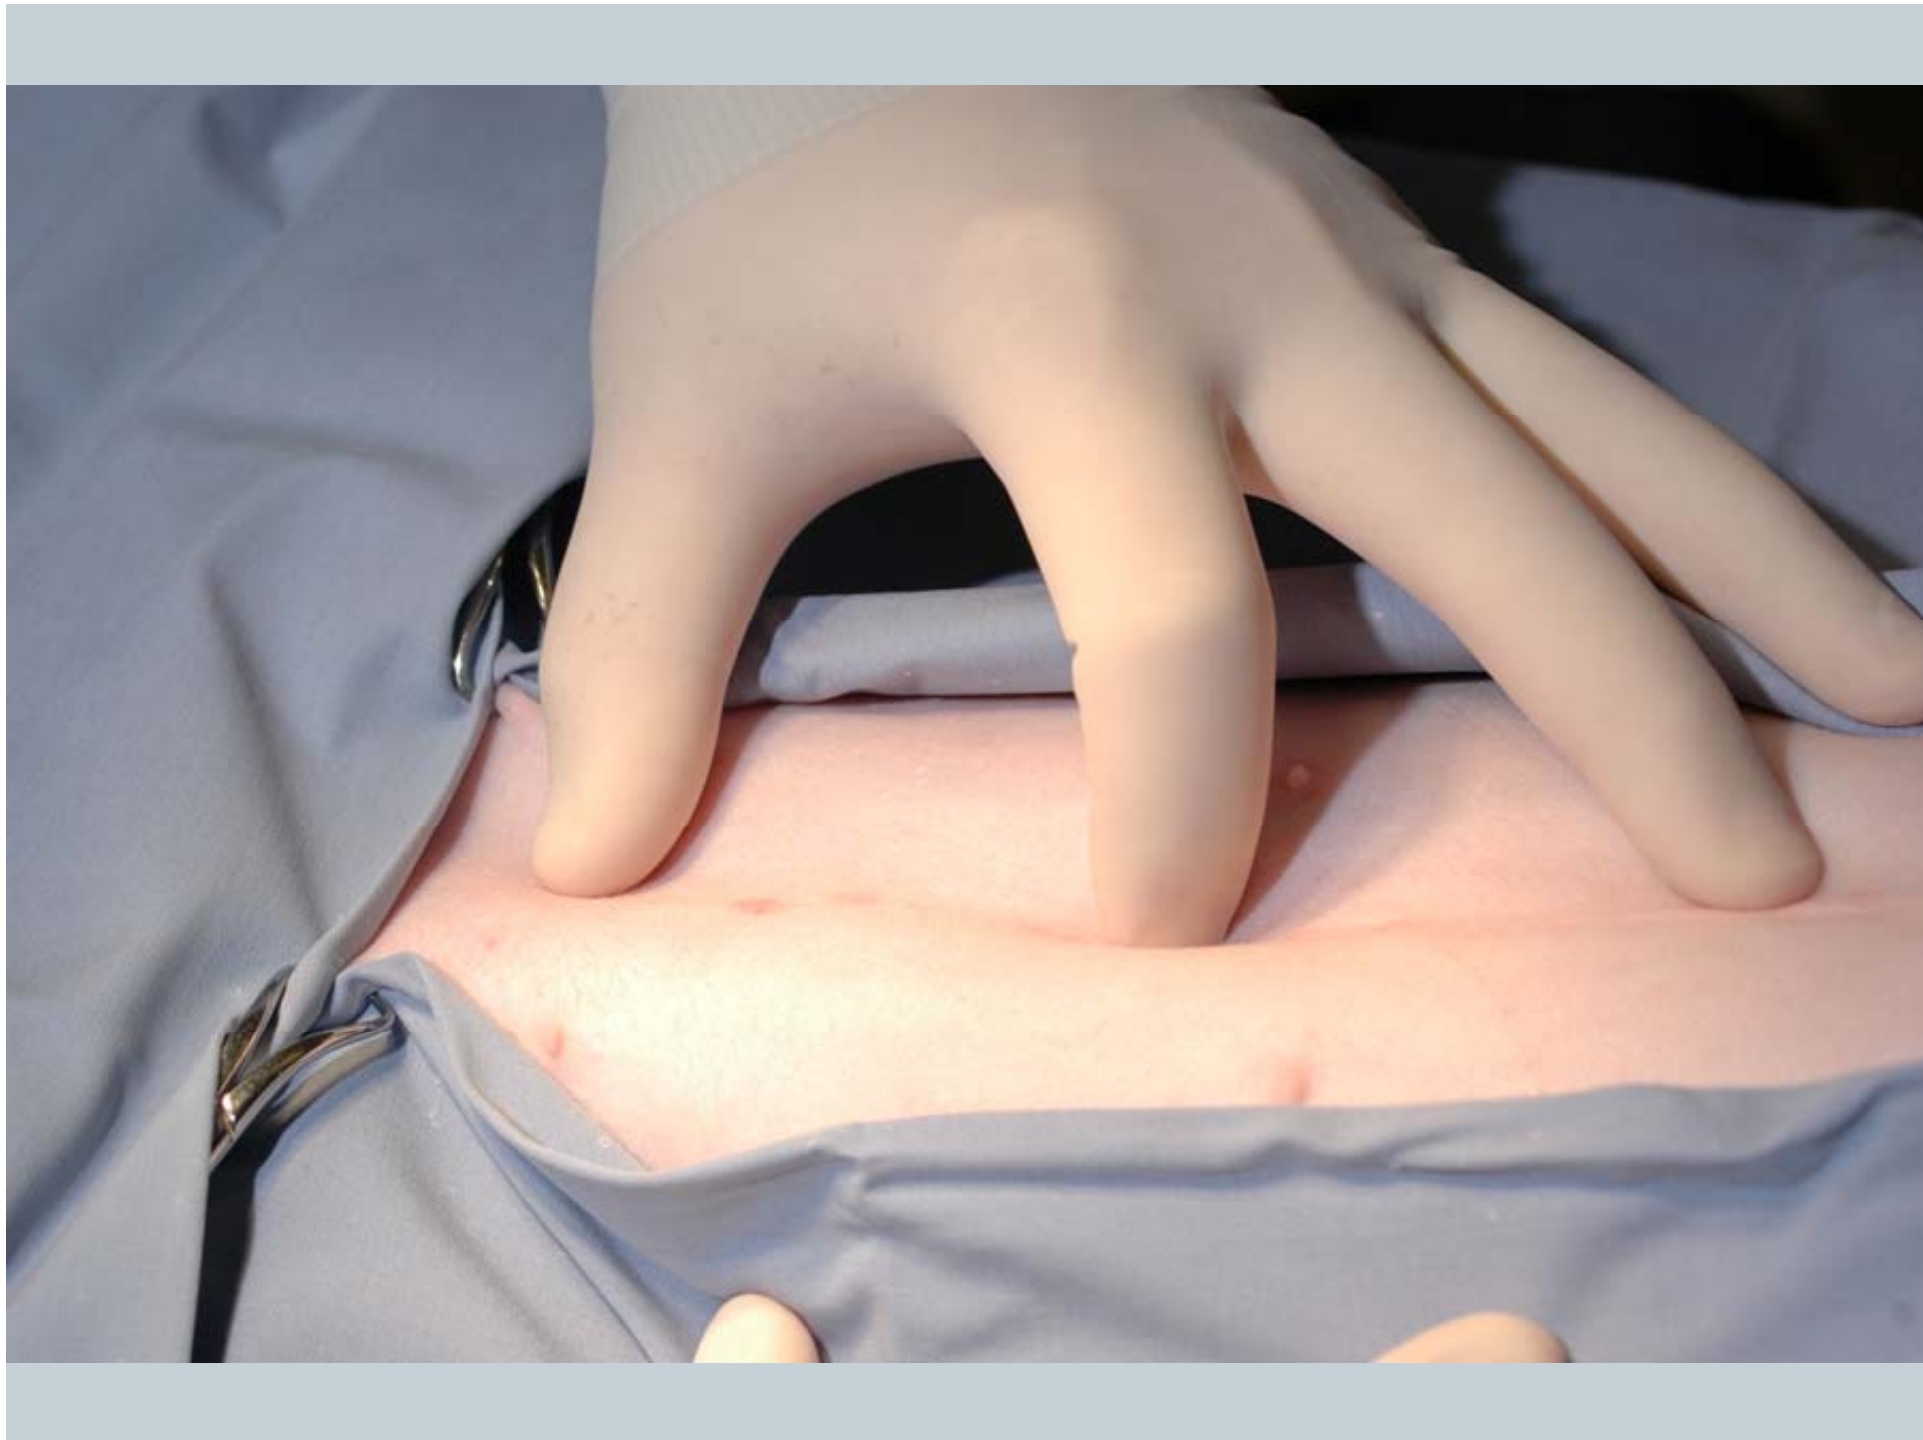

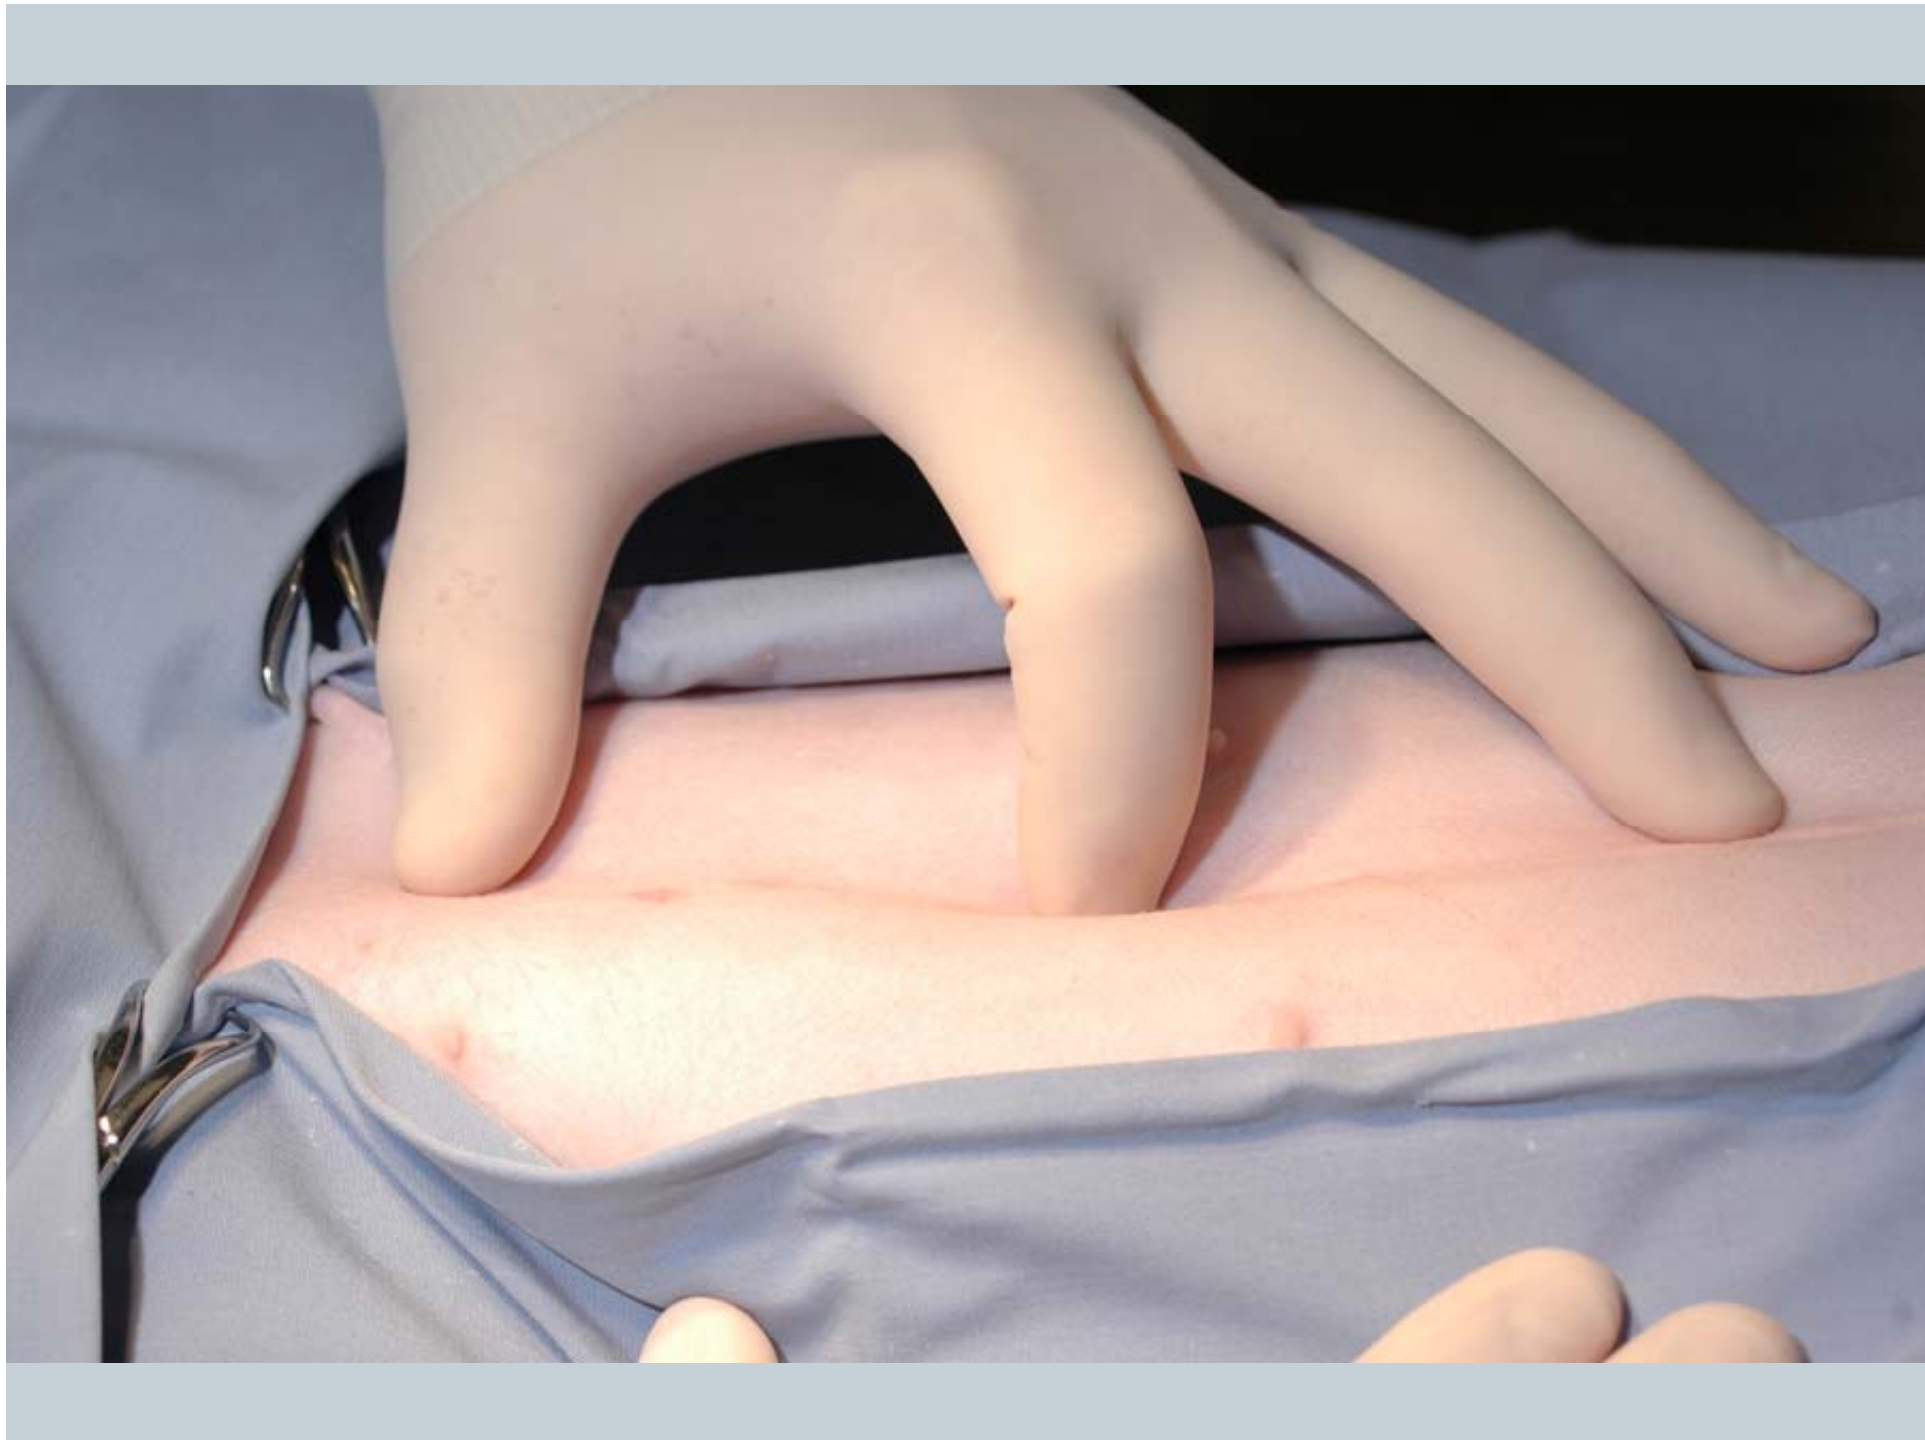

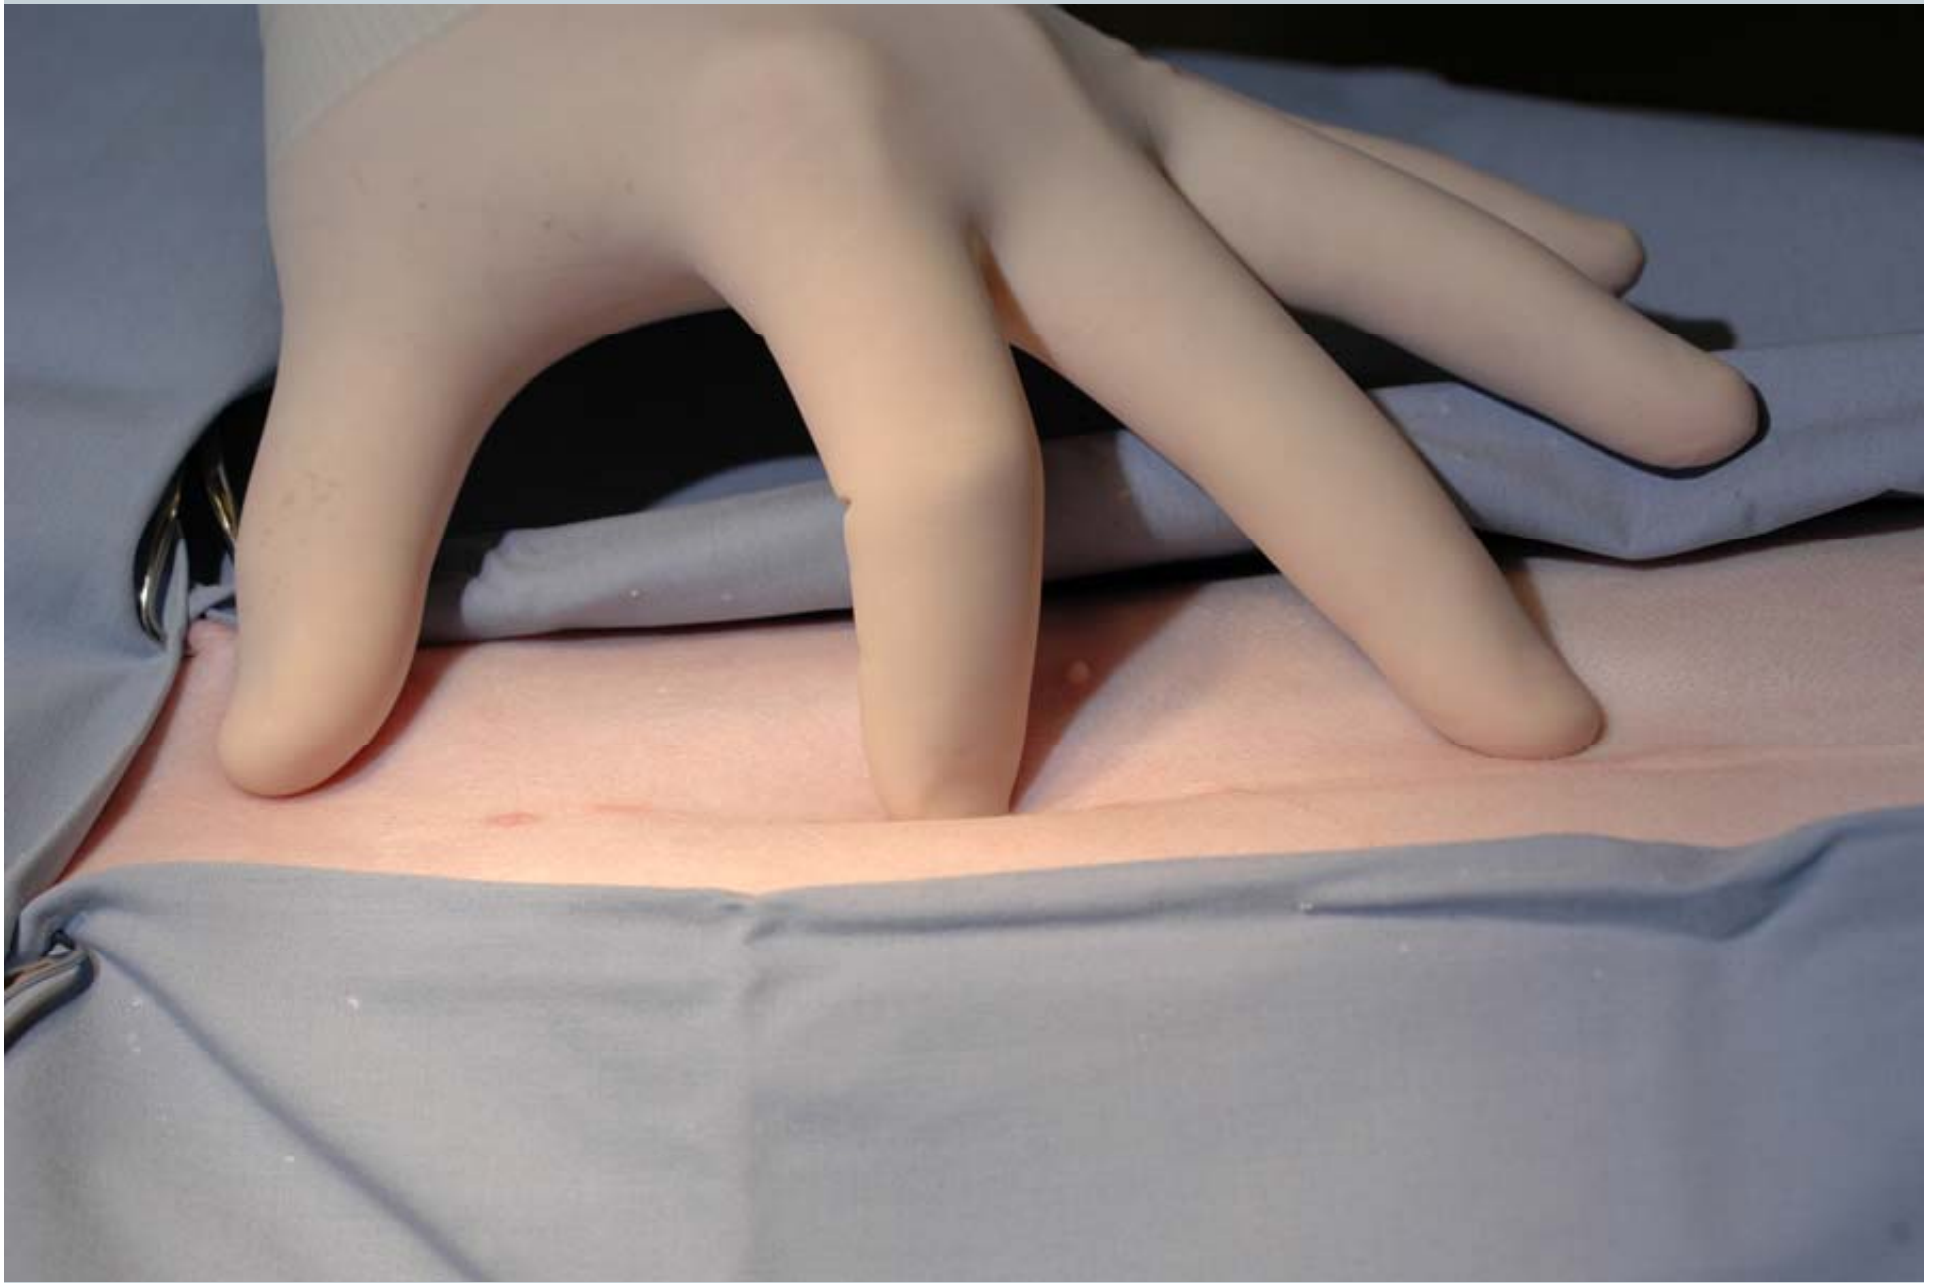

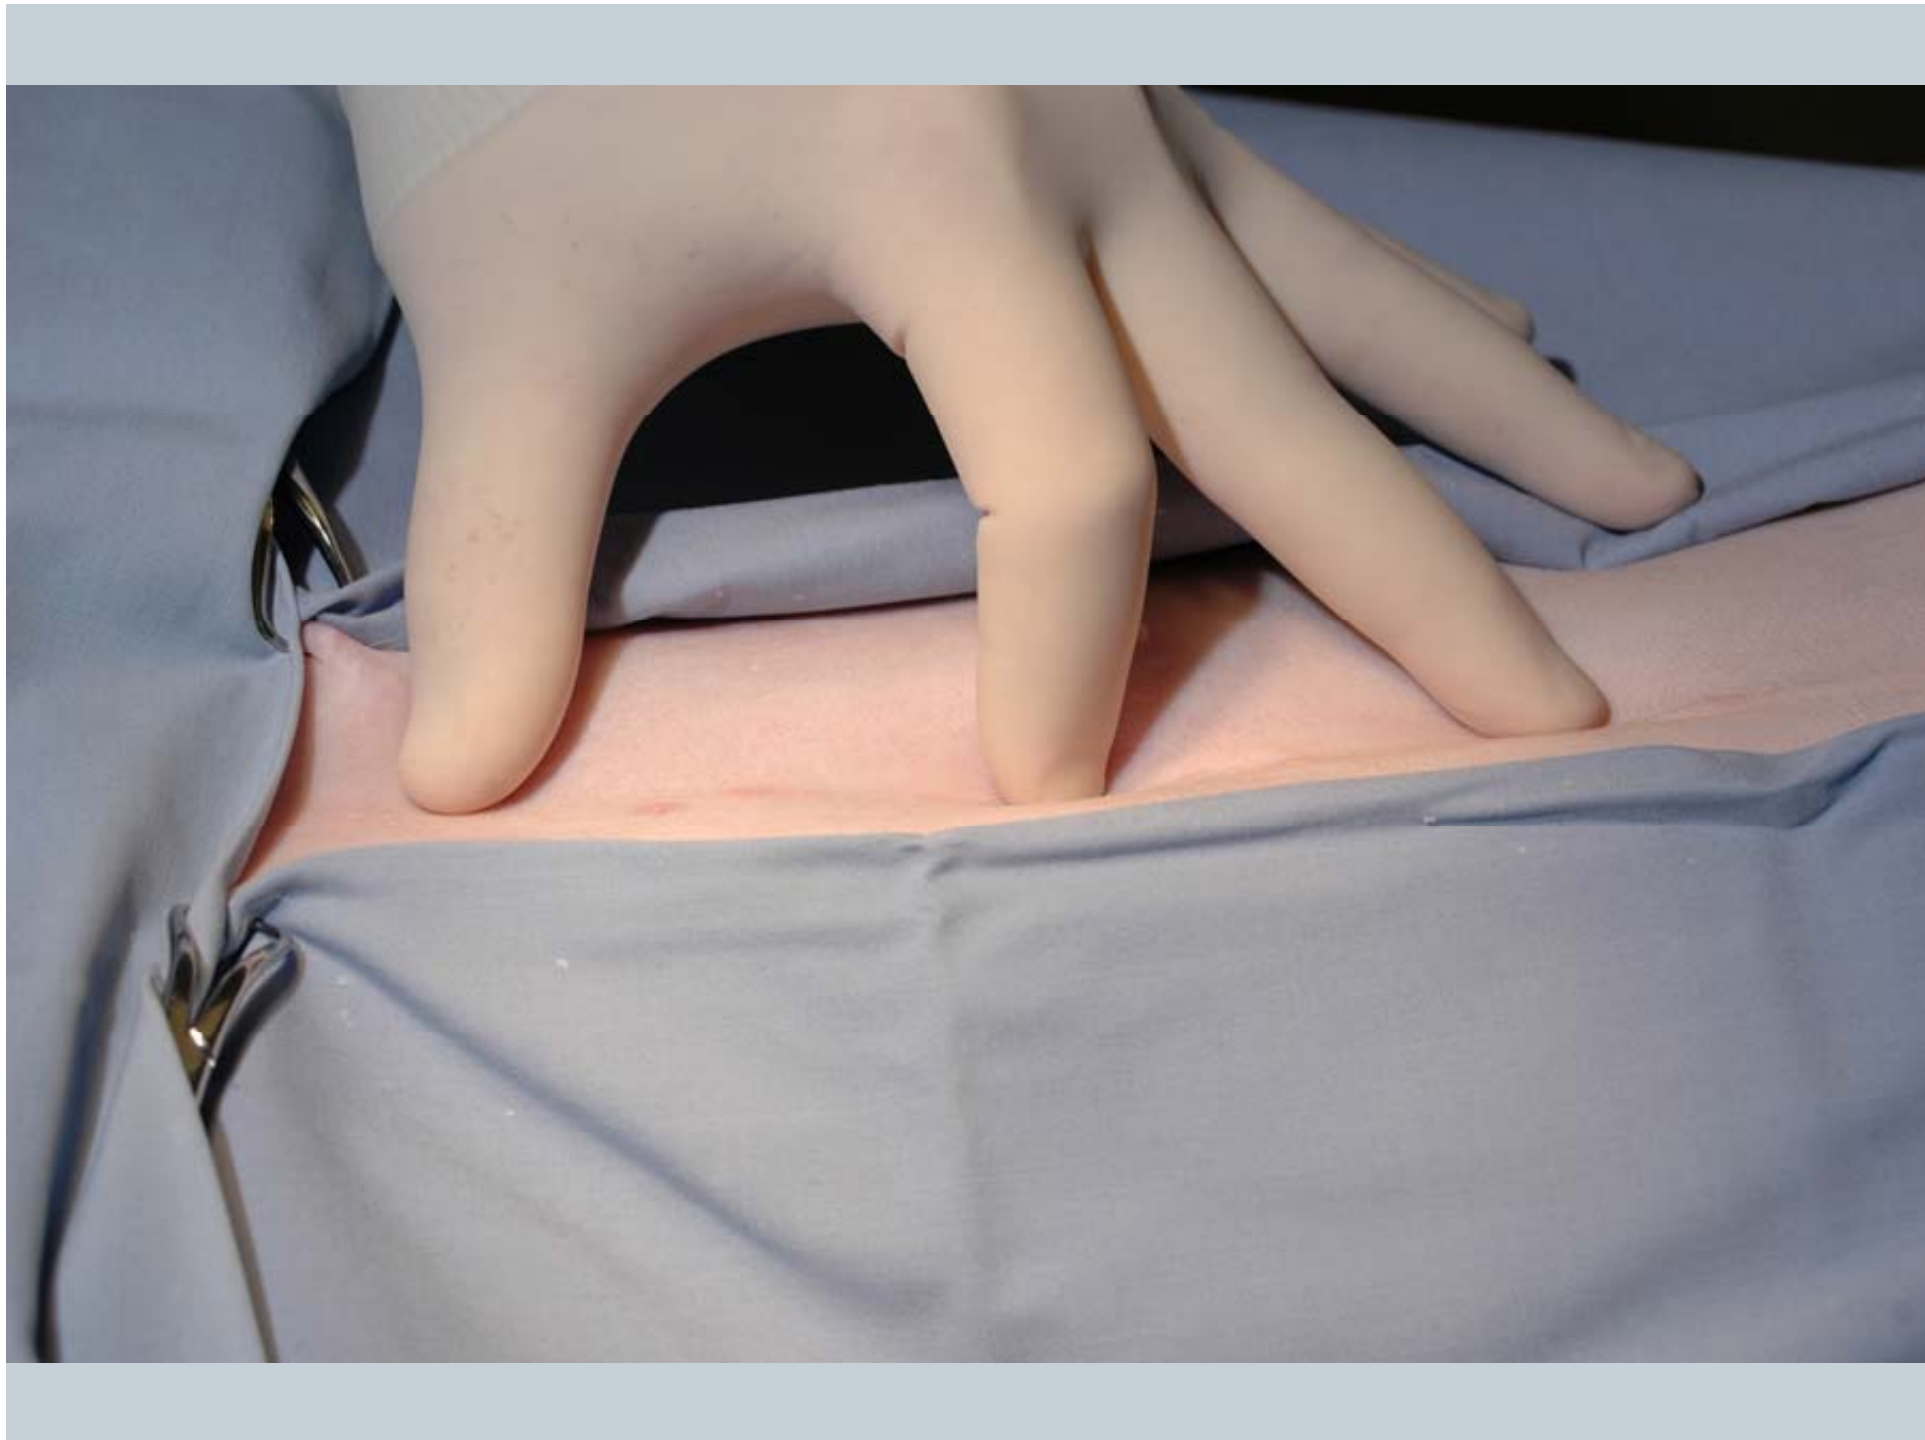

Naughty, naughty

Cranial

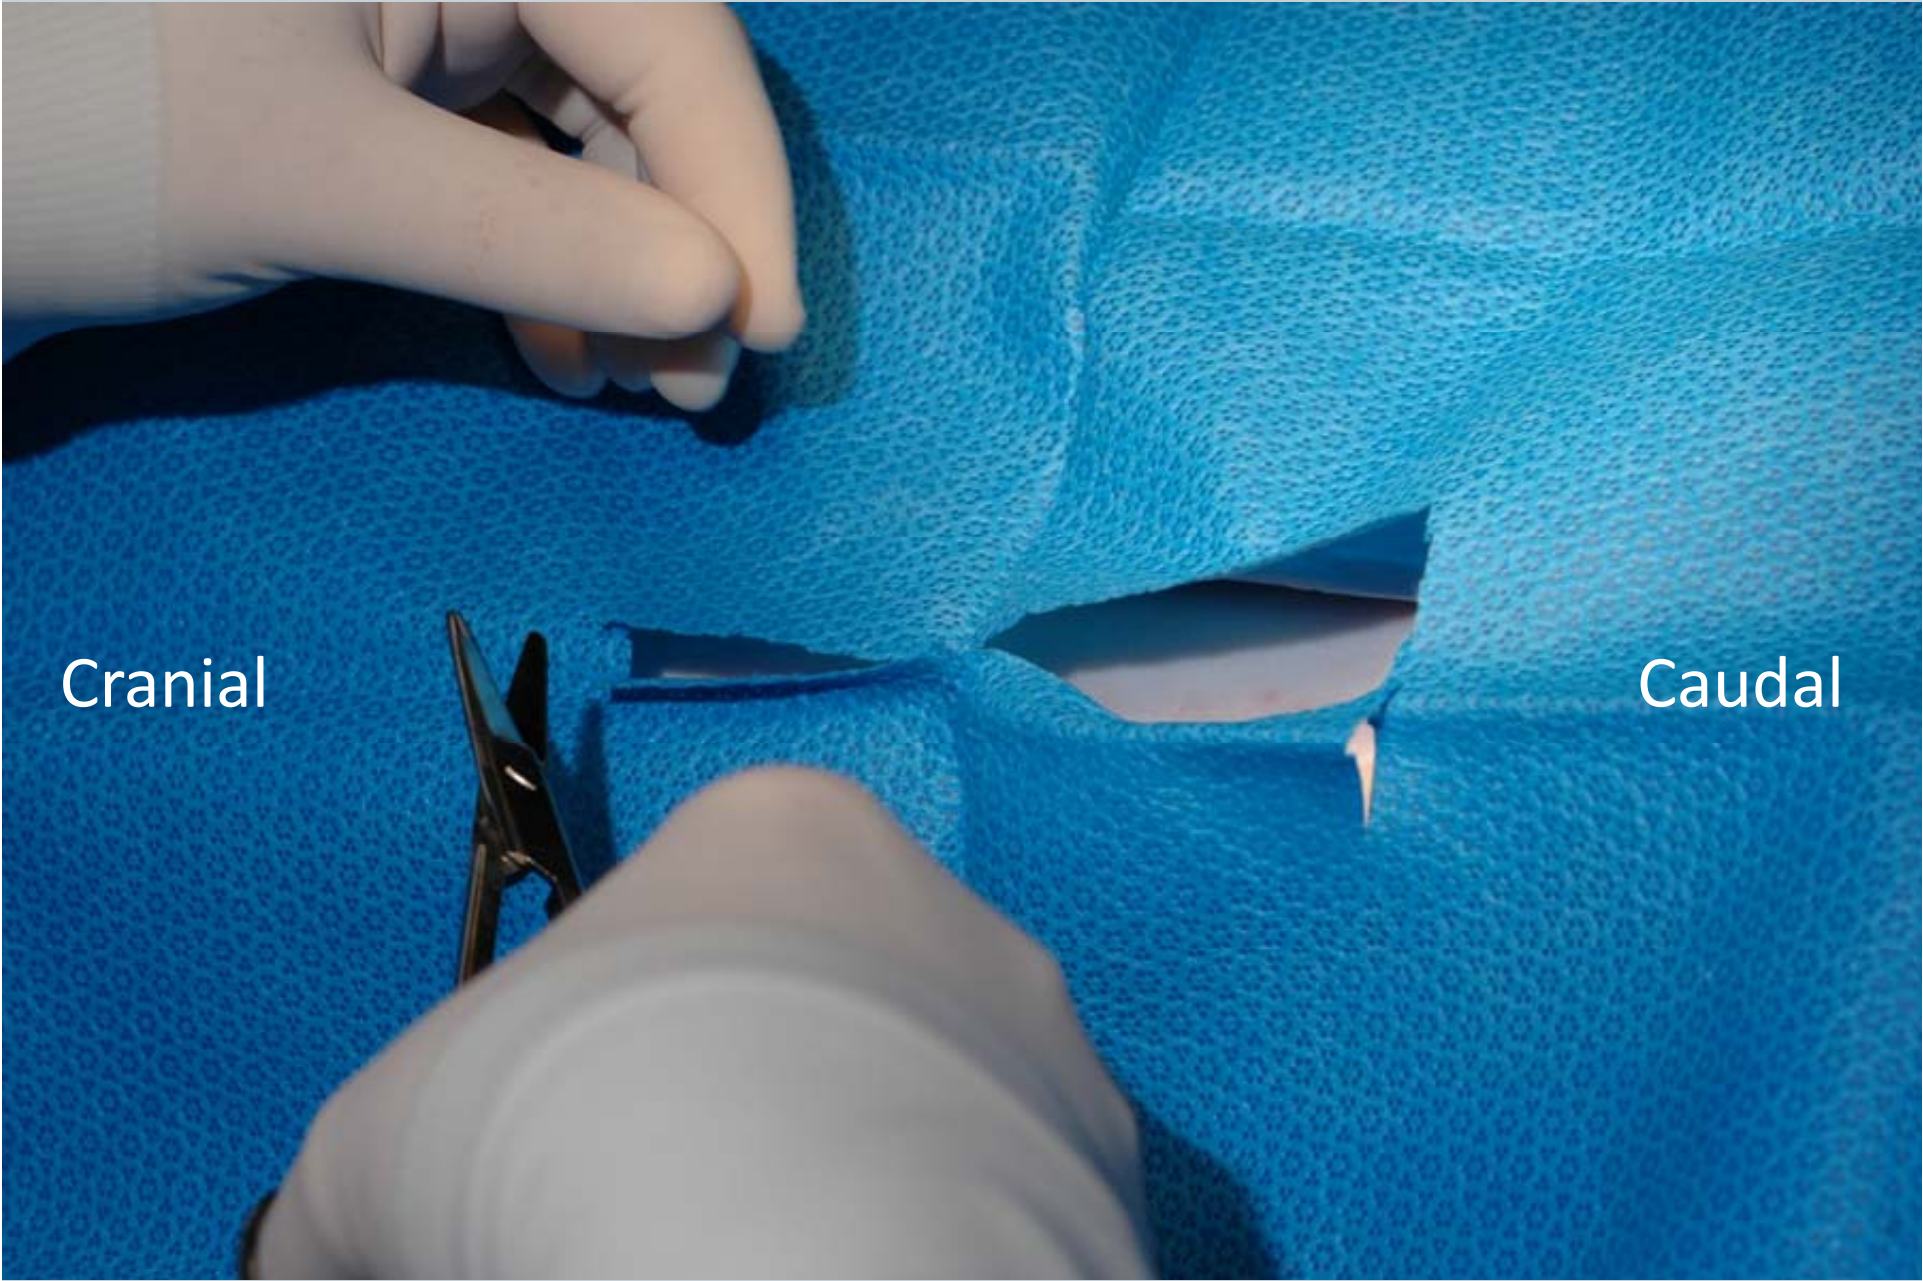

Caudal

Cranial

Caudal

A photograph of a surgical site. A blue sterile drape covers the area, with a central incision. A hand in a white glove is visible at the top left, and surgical scissors are at the bottom left. The word 'Cranial' is on the left and 'Caudal' is on the right.

Cranial

Caudal

Orientation of Slides

- These surgical procedure photographs were shot from the perspective of a right-handed surgeon.
- Since a right-handed surgeon stands on the dog's right side during ovariohysterectomy, cranial is to the left and caudal is to the right in the intraoperative pictures in this photo album.
